LIFF Presents: Fantastic Planet

René Laloux's mesmerising psychedelic sci-fi animation is a cult classic and foreshadows the work of Hayao Miyazaki and Studio Ghibli. Fantastic Planet tells the story of 'Oms', human-like creatures, kept as pets by an alien race of blue giants called 'Draags' on the planet Ygam, where we follow our Om narrator from infancy to adulthood. Fantastic Planet has been selected for LIFF Presents' music film night for Alain Goraguer's brilliant score. [Trailer](#)
